LinkedIn: linkedin.com/in/sweety-kopparthi-3810a9283

Professional Summary

Full Stack Developer and agentic coder with an interest in AI and web development. Skilled in building practical applications and solving real-world problems.

Education

B.Tech – Computer Science and Engineering **2022 – 2026**

Sree Vahini Institute of Science and Technology, Tiruvuru

Percentage: 73.52%

Intermediate (MPC) **2020 – 2022**

Sree Padmavathi Mahila Kalasala, Jangareddigudem

Percentage: 78.4%

Secondary School (10th Standard) **2020**

G.L.N Girls High School, Jangareddigudem

Percentage: 85.67%

Technical Skills

Programming Languages: Python, JavaScript

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB

AI: Prompt Engineering, LiveKit

Developer Tools: Git, GitHub, VS Code, Postman, Swagger UI, Netlify, Render, Firebase Console, Google Console

Documentation: LaTeX, Microsoft Word

AI Tools: ChatGPT, Gemini, Claude, GitHub Copilot, Replit AI, Bolt.new, Base44

Projects

1. Restoring Trust in Social Media Commerce by Distinguishing Original and Replica Brands

Tech: React.js, Python, MongoDB, AI

Project Link: <https://og-badge-insta.netlify.app/>

Developed a system to distinguish original and replica brands using AI techniques, improving trust in social media commerce.

2. Esita Chatbot

Tech: React.js, Python, Gemini API, REST APIs

Project Link: <https://esita-chatbot.netlify.app/>

Developed an AI-powered chatbot capable of generating intelligent responses through external API integration.

3. Knighthood Mindset

Tech: HTML, CSS, JavaScript

Project Link: <https://knighthoodmindset.github.io/KnighthoodMindset-ExploreTheEducationalWorld/>
Built an educational platform featuring structured study materials and AI chatbot integration.

4. LiveKit AI Agent

Tech: Python, LiveKit, AI Agents

Implemented a real-time voice-enabled AI assistant with email automation capabilities.

5. Roast My Code – VS Code Extension

Tech: Node.js, VS Code Extension API

Developed a VS Code extension that analyzes selected code snippets and generates humorous roast-style feedback while highlighting potential improvements.

6. Scypher Noxis

Tech: HTML, CSS, JavaScript, Cryptography

Project Link: <https://scyphernoaxis.netlify.app/>

Built a cryptography platform implementing seven encryption and decryption algorithms.

7. Resume Builder Website

Tech: React.js, Node.js, MongoDB

Developed a web application that enables users to create professional resumes dynamically.

Internships

MERN Stack Intern – Edubot 2025

Developed full stack applications using MongoDB, Express.js, React.js, and Node.js.

AI & Machine Learning Intern – Elewayte 2024

Worked on AI and Machine Learning concepts using Python, focusing on model implementation and practical application development.

Certifications

IBM SkillsBuild – Create a Great Professional Resume 2026

NPTEL – Software Testing 2025

NPTEL – Cybersecurity and Privacy 2025

MERN Stack Internship Certificate – Edubot 2025

AI & ML Internship Certificate – Elewayte 2024

Achievements

Best Writer Award – Indira Arts Foundation 2025

Sahithya Ratna National Award – Bahujana Sahithya Academy 2024

Strengths

Creative thinking

Clear communication and presentation skills

Leadership qualities
