Professional Summary

AI-focused Full Stack Developer passionate about building scalable web applications and trust-driven intelligent systems. Strong analytical thinker with experience in frontend, backend, cybersecurity awareness, and AI-based system development.

Technical Skills

Programming: Python, JavaScript

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: FastAPI, Node.js, REST APIs

Database: MongoDB, MySQL

AI & Systems: AI Chatbots, Automation Systems, Fraud Detection Logic

Security: Cybersecurity Fundamentals, Software Testing Principles

Documentation: Microsoft Word, LaTeX

Tools: Git, GitHub, VS Code, Netlify

Projects

Knighthood Mindset

Tech: HTML, CSS, JavaScript

Developed an LMS-style educational platform with structured learning modules and chatbot integration.

Scypher Noxis

Tech: HTML, CSS, JavaScript, Cryptography

Built an encryption and decryption platform implementing multiple unique cryptographic techniques.

SkillKernal

Tech: HTML, CSS, JavaScript

Designed a learning support website with NPTEL notes and quizzes.

Restoring Trust in Social Media Commerce by Distinguishing Original and Replica Brands

Tech: React.js, MongoDB, Python, AI

Designed a system to distinguish original vs replica brand promotions to reduce fake ads and improve trust in social media commerce.

AI Chatbot (Grok API)

Tech: React.js, API Integration, Python

Developed an AI-powered chatbot capable of generating dynamic responses through external API integration.

LiveKit AI Agent (Slicy)

Tech: Python, LiveKit, AI Agents

Implemented a real-time AI assistant with voice interaction, web search, weather, and email automation capabilities.

Resume Builder Website

Tech: Web App, UI/UX

Created a dynamic web app to help users generate structured professional resumes.

QR Code Reader App

Tech: React.js

Built a web-based QR code scanner for instant reading and decoding.

Internships

AI & Machine Learning Intern – Elewayte

Worked on AI concepts using Python, focusing on structured model implementation and practical system development.

MERN Stack Intern – Edubot

Developed full stack applications using MongoDB, Express, React, and Node.js.

Certifications

NPTEL – Software Testing

NPTEL – Cybersecurity and Privacy

AI & ML Internship Certificate – Elewayte

MERN Stack Internship Certificate – Edubot

Achievements

Sahithya Ratna National Award – Bahujana Sahithya Academy (2024)

Best Writer Award – Indira Arts Foundation (2025)

Strengths

Strong analytical thinking

End-to-end project execution

Clear communication and documentation skills

Trust-oriented system design mindset

Hobbies

Creative writing

Reading literature

Exploring AI technologies

Public speaking and idea presentation

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
